AUDITORY THREAT

A cackling voice echoing:
"Hahaaaaa kriiii religious
psychosis, psychosis."
Accompanied by pervasive
roach-like chirping.

VISUAL THREAT

Flickering asylum lights.
A massive armored door
revealing a hooded figure
with a swarm of roach faces
beneath the cowl.

TACTILE THREAT

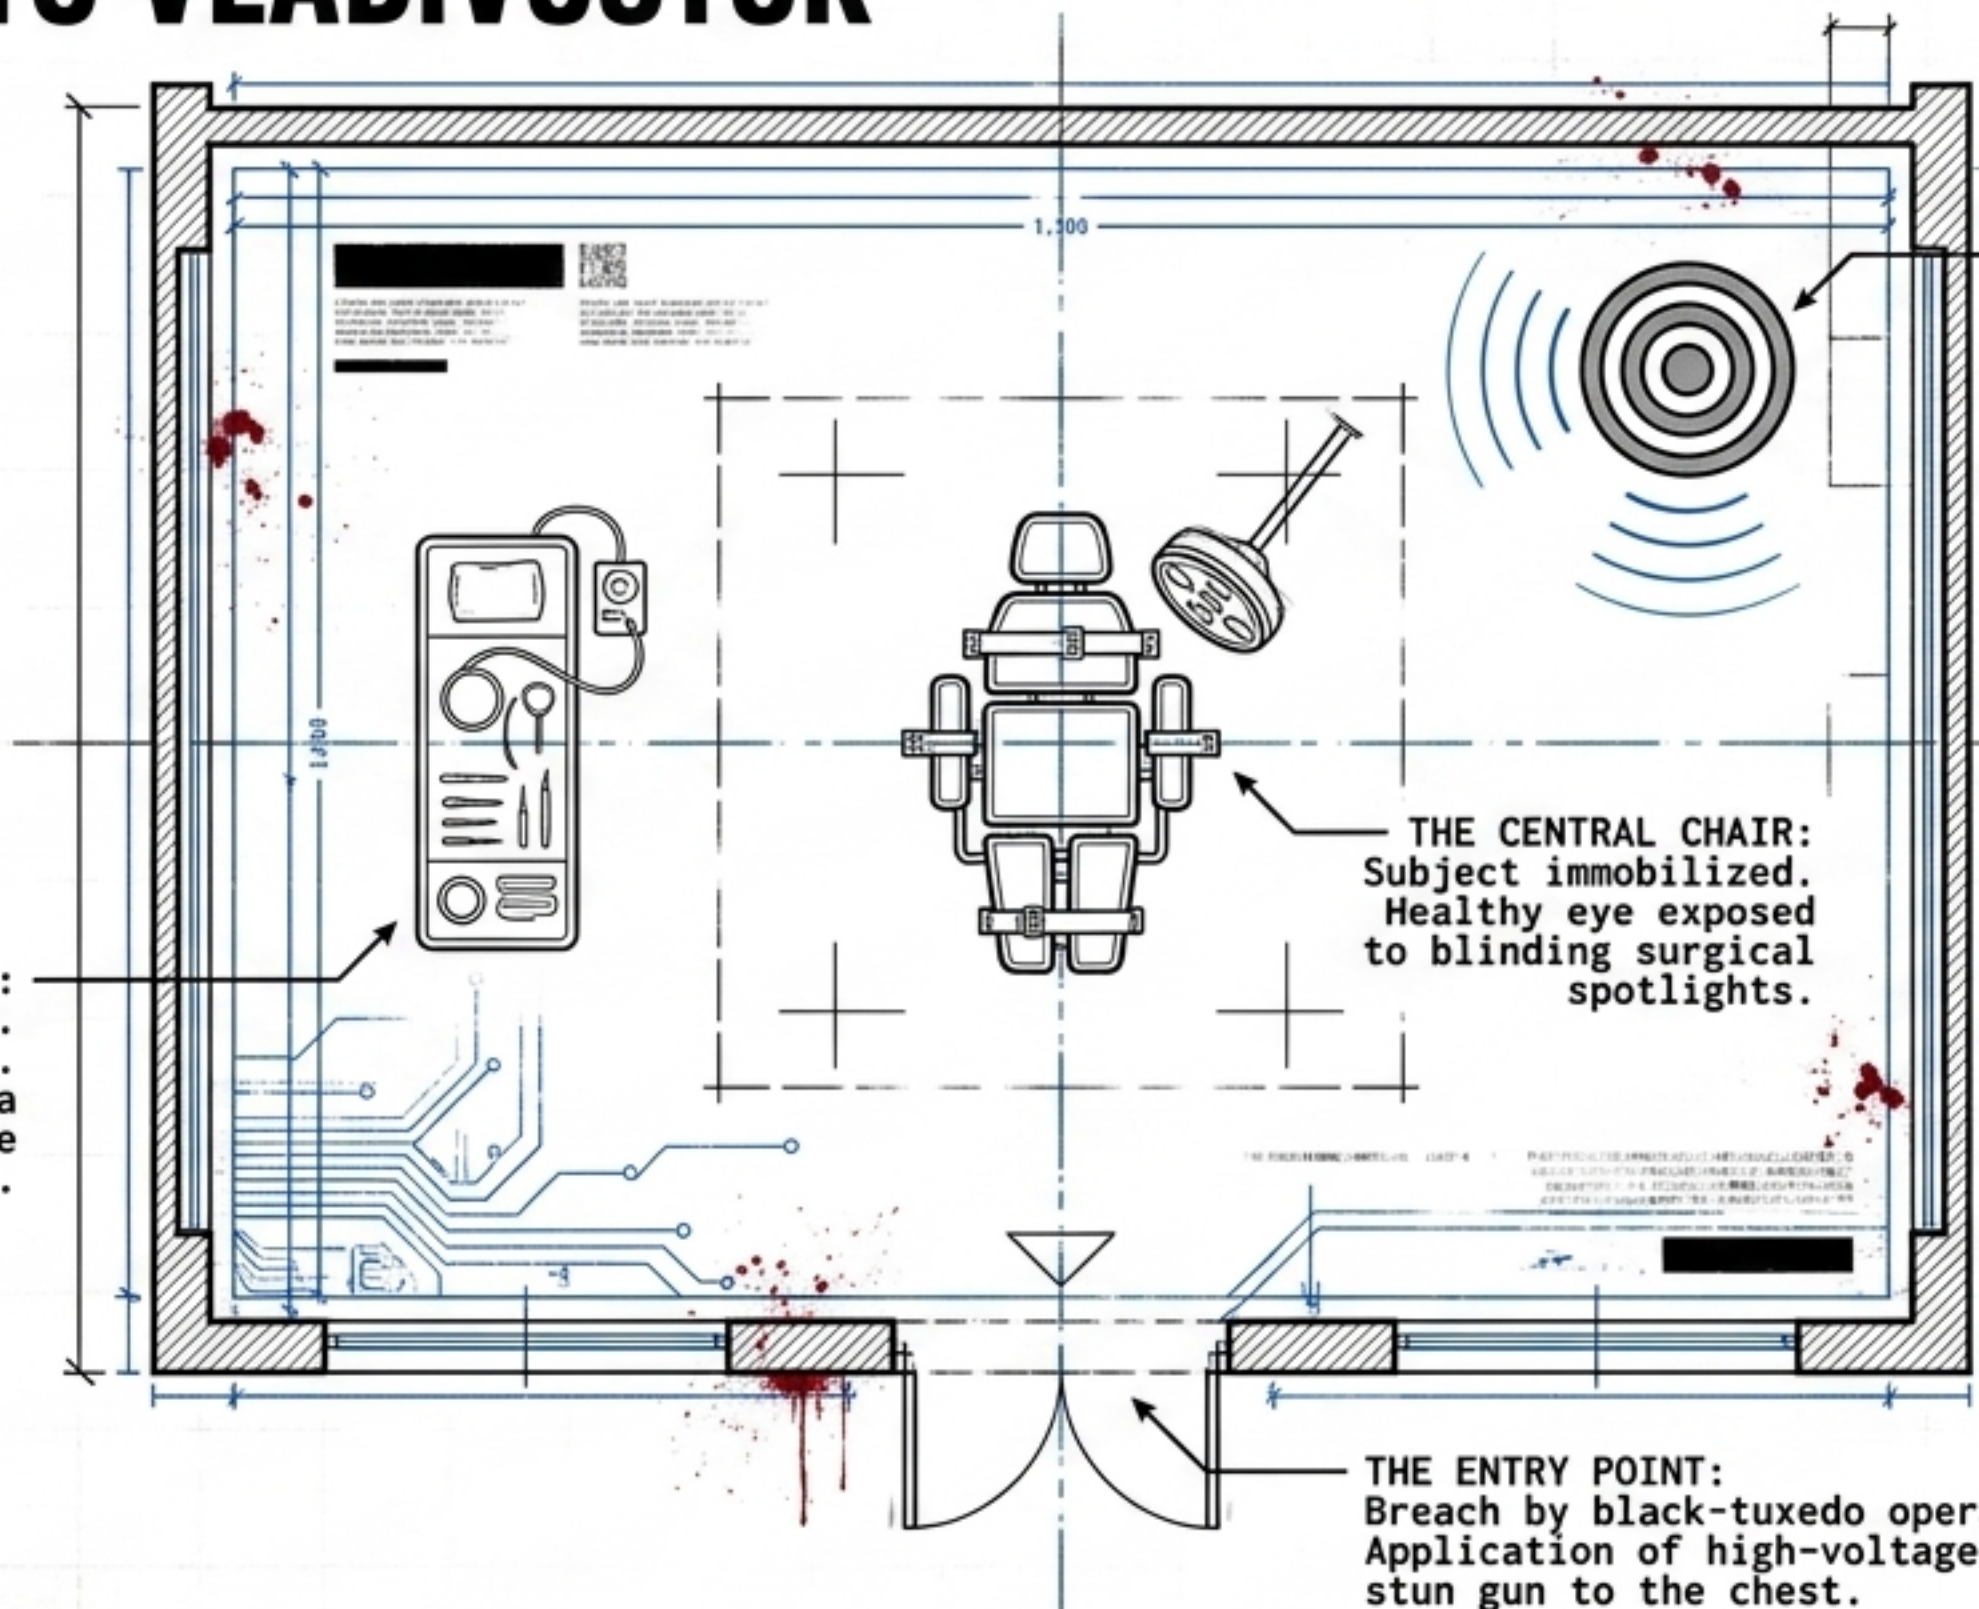

Slimy, biological anomalies
(cockroaches) crawling up
pant legs and infiltrating
the shirt collar.

AUDIO LOG TRANSLATION:

"Black angels, fetch the patient
for the acid bath."

THE SURGICAL THEATER: WELCOME TO VLADIVOSTOK

EXAMINATION TABLE:
Tubes probing lungs.
Scalpel threat logged.
Forehead tapped with a
metal hammer to induce
blackout.

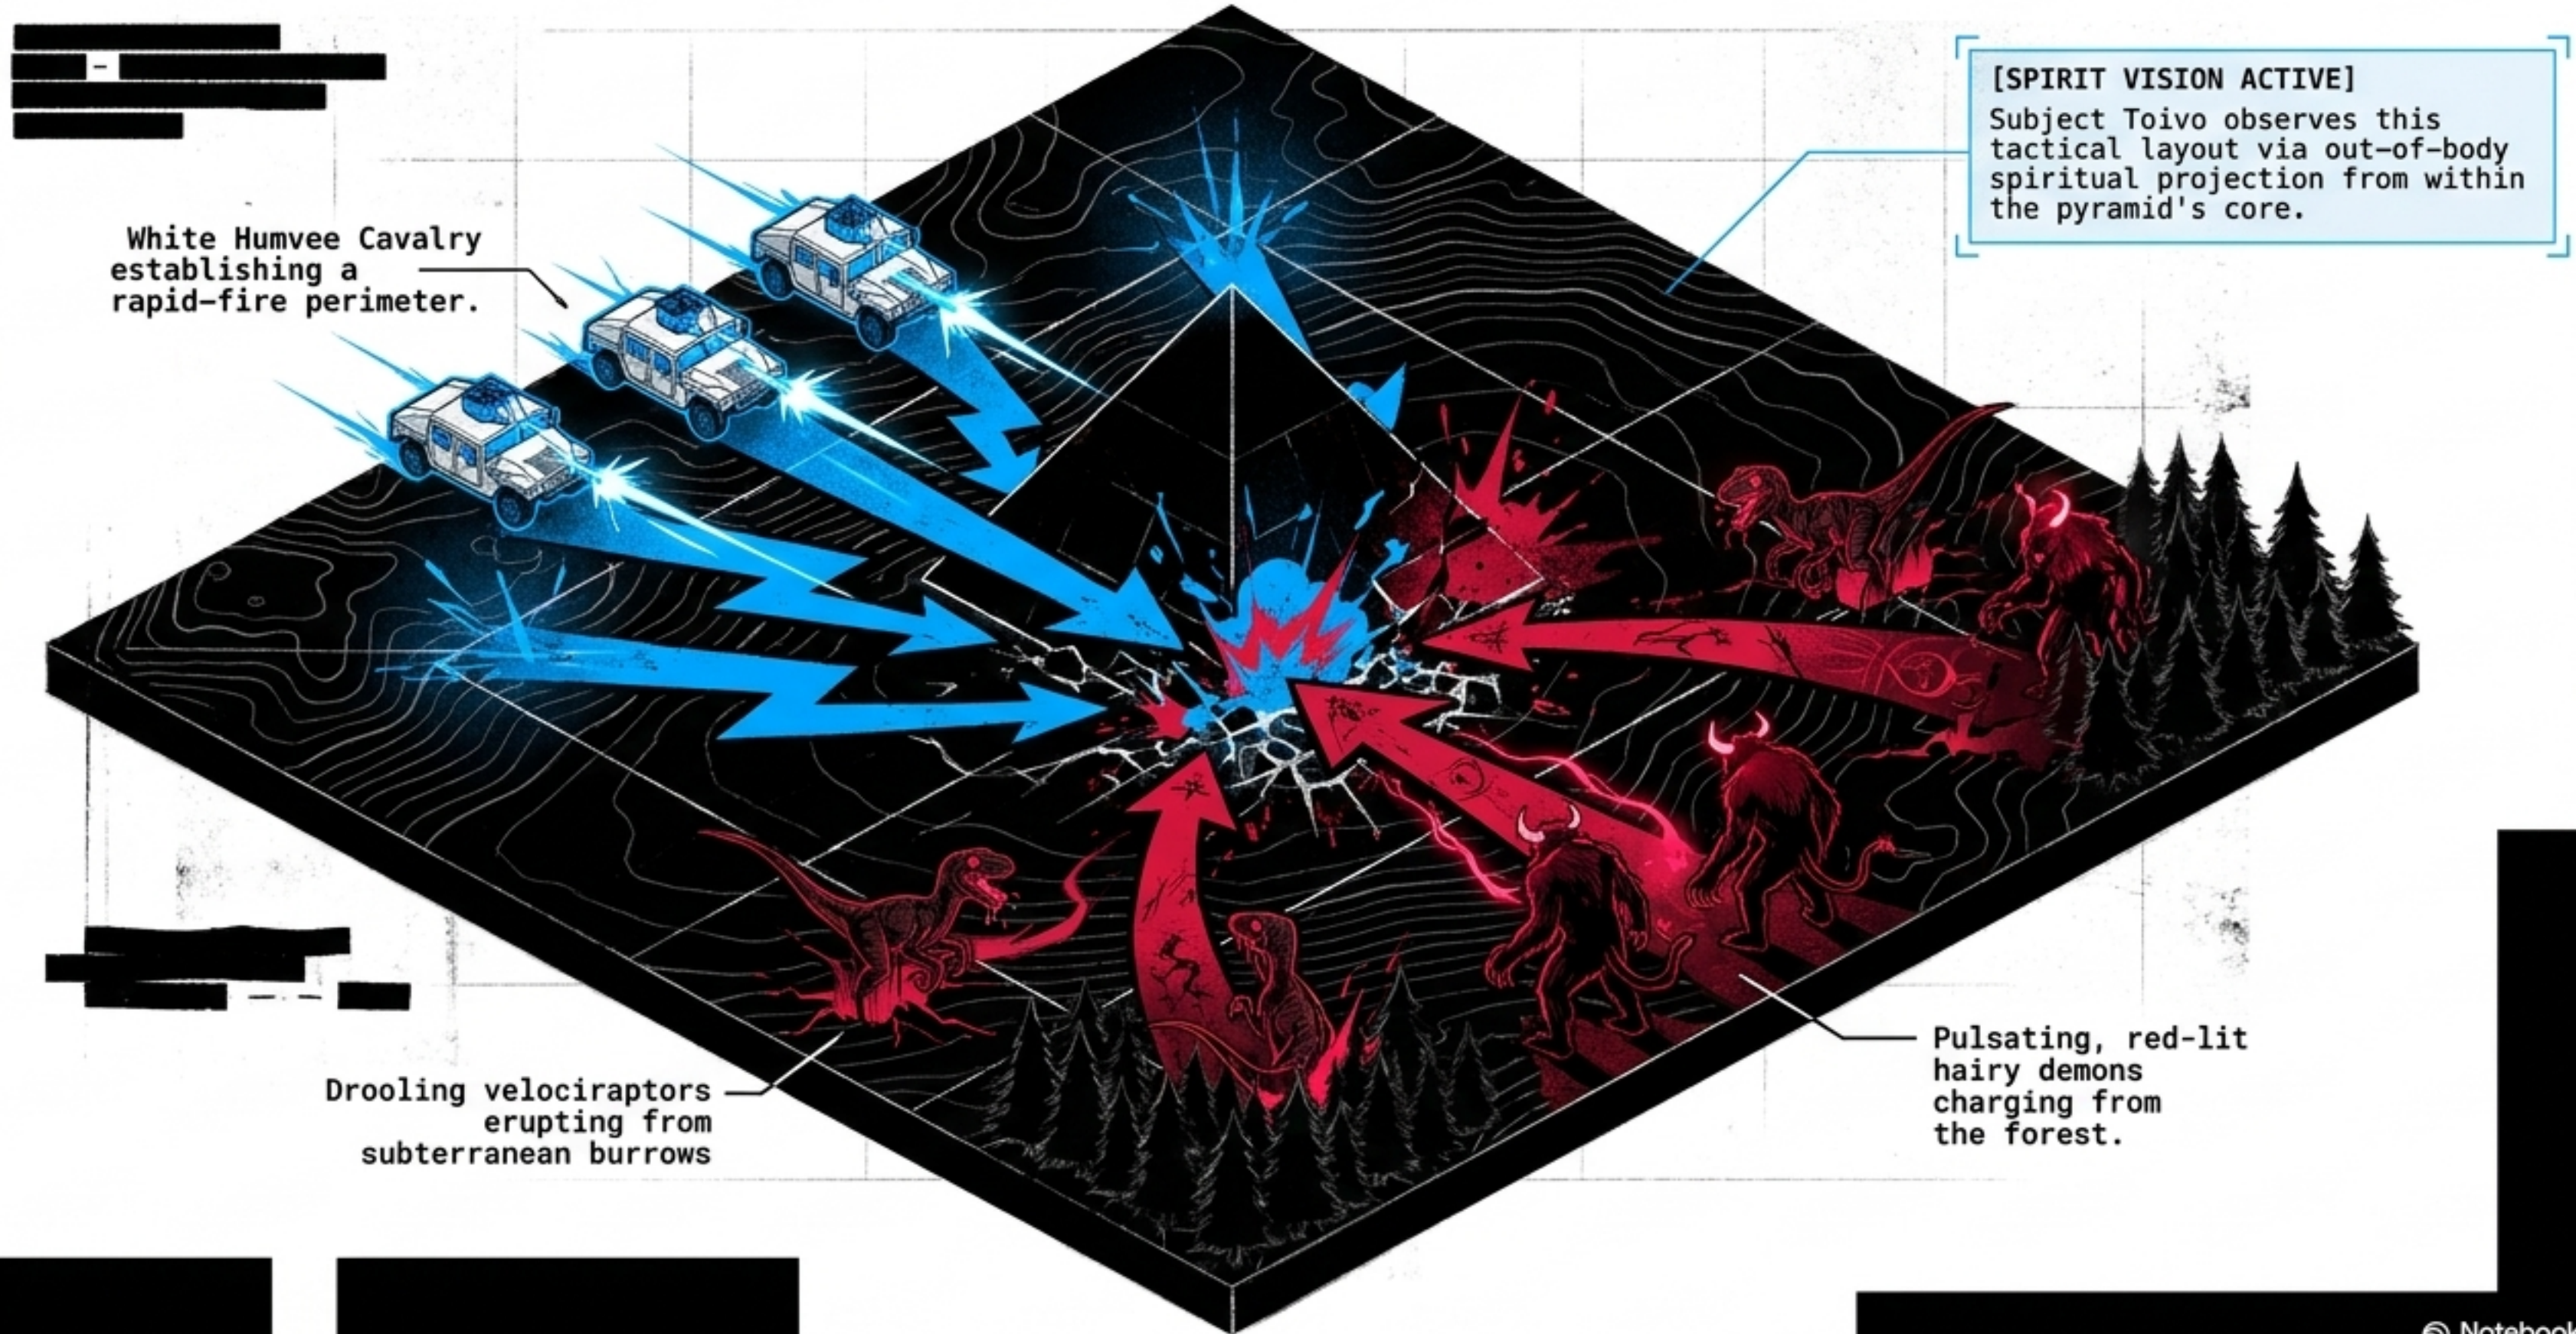

THE CENTRAL CHAIR:
Subject immobilized.
Healthy eye exposed
to blinding surgical
spotlights.

THE CEILING ARRAY:
"Welcome to Vladivostok.
Hahahaha, we the black
ones installed
a microchip in your
brain. You are a perfect
fit."

THE PERIMETER:
360-degree one-way
mirrors concealing
unknown researchers.

THE ENTRY POINT:
Breach by black-tuxedo operatives.
Application of high-voltage
stun gun to the chest.

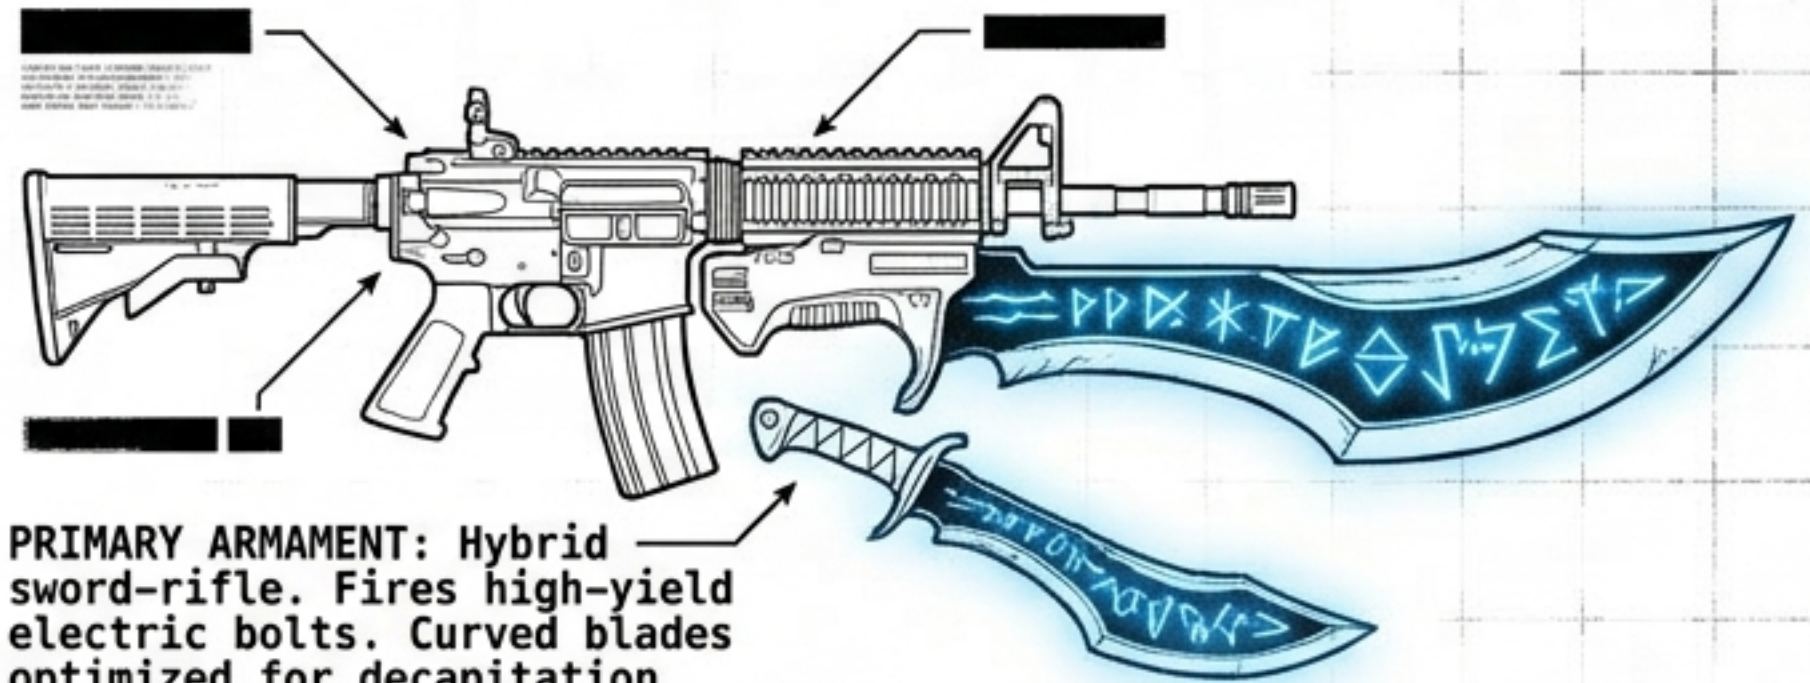

THE PERIMETER BREACH: CAVALRY MEETS THE OCCULT

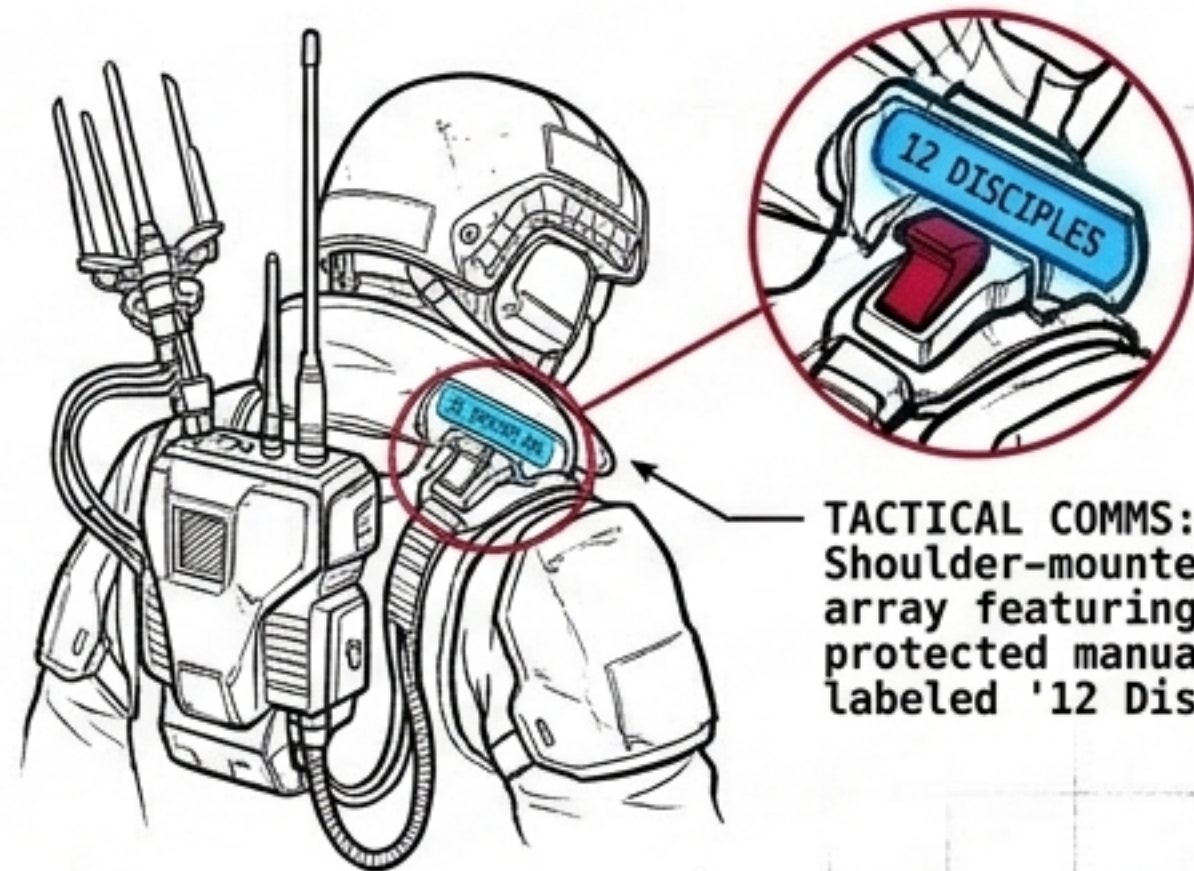

OPERATIVE PROFILE: 'ANGEL-FACE'

PROFILE: Dual classification. Biological mother of test subject Toivo AND ruthless forward commander of the Heavenly Cavalry.

PRIMARY ARMAMENT: Hybrid sword-rifle. Fires high-yield electric bolts. Curved blades optimized for decapitation of occult anomalies.

TACTICAL COMMS: Shoulder-mounted uplink array featuring a protected manual trigger labeled '12 Disciples'.

COMBAT SEQUENCE: THE ACID SKIRMISH

01. THE THREAT

Black Angel deploys explosive fan-projectile. Angel-face intercepts with an electric bolt.

02. THE CONSEQUENCE

Destroyed weapon releases a splash of black acid, violently melting Angel-face's arm upon impact.

03. THE SACRIFICE

Commander executes an immediate, rapid self-amputation of the infected limb to halt the acid spread.

04. THE CAUTERIZATION

Immediate cauterization of the wound using the secondary blue flame function of the primary weapon.

TACTICAL ESCALATION: PROTOCOL '12 DISCIPLES'

TACTICAL CALLOUT 1:
Screaming in agony, she
pressed a button on her
shoulder... Lasers shot
down from space.

ADVANCE SECURED:
Angel-face pushes through
the pain, splitting a
velociraptor's head and
decapitating a Black Angel
to secure the pyramid entrance.

INFILTRATION PROTOCOL: BYPASSING OCCULT ARCHITECTURE

KEY: BLACK ANGEL HEAD

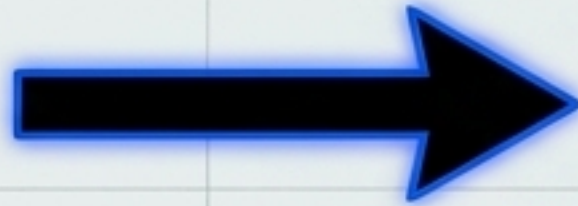

BARRIER: BIOMETRIC MAW

Severed head of a Black Angel scanned.
Result: Tooth-like pyramid doors retract open like a massive biological maw.

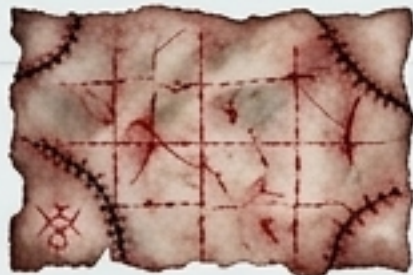

KEY: INCENDIARY CLEARANCE

BARRIER: POSSESSED PERSONNEL

Incendiary clearance by John.
Result: Possessed nurses and doctors roasted, clearing the interior corridors.

KEY: SKIN-MAP

BARRIER: INTERIOR LABYRINTH

Skin-map retrieved from wall.
Result: The exact location of the 'black heart' of the facility is identified.

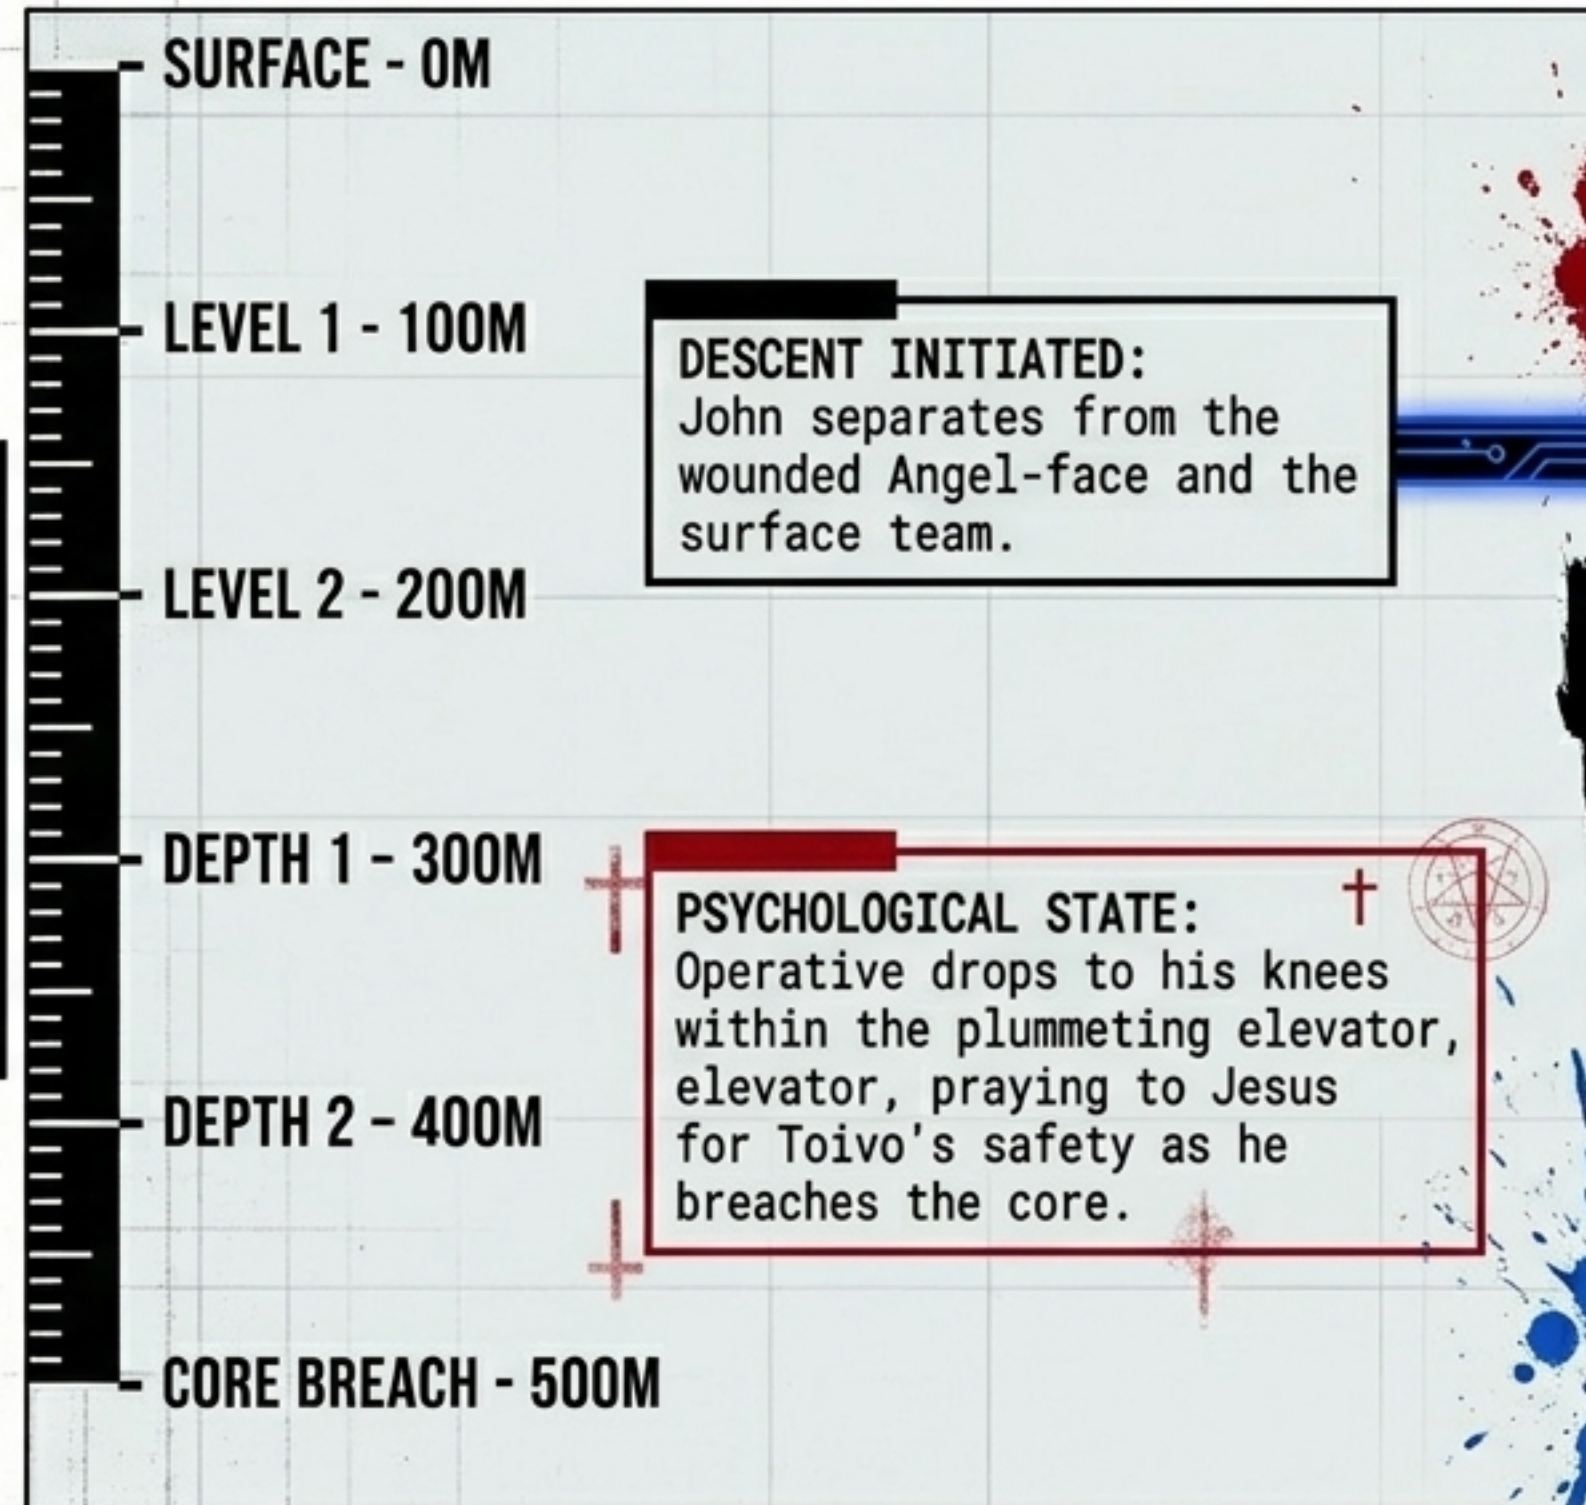

KEY: FRESH BLOOD

BARRIER: OCCULT LOCK

Fresh blood drained from a severed arm applied to mechanism.
Result: Final occult security lock is bypassed.

DESCENT INTO THE BLACK HEART

CRITICAL FAILURE: THE BLOOD ROOM

RED GENERAL ALARM
| ■ TRIGGERED ■ |

RED GENERAL ALARM
| ■ TRIGGERED ■ |

ENVIRONMENTAL HAZARD:

Holes manifest in the walls. Red blood pours uncontrollably into the sealed clinical space. Containment breach catastrophic. Biological contamination imminent.

SENSORY OVERLOAD:

Liquid level rapidly reaches the subject's knees. Total psychological panic and physical drowning imminent. Vitals crashing. Occult energy readings spiking in the crimson fluid.

CONVERGENCE: SHATTERING THE MIRROR

A massive bang
echoes through the
blood-filled room.

John shoots the mirror
room's door open from
the outside.

The glass
shatters violently.
The trapped blood
gushes out into
the facility.

Toivo's
consciousness
fades to the
sound of burned
occult doctors
howling in
agony.

EXTRACTION AND SEDATION

Toivo: "Mother, are you wounded?"

Angel-Face: "Shh, my son."

(Operative maintains a reassuring smile through immense physical pain).

FINAL ACTION:

Subject receives an immediate injection of medicine into the neck, forcing a deep, stabilized sleep. Extraction successful.

THE ARCHITECTURE OF PSYCHOSIS

COCKROACHES / CACKLING VOICES

Equals: Intrusive thoughts
and severe auditory
paranoia.

OCCULT SURGEONS IN MIRRORS

Equals: Real-world medical
staff attempting physical
or chemical restraint.

THE BRAIN MICROCHIP

Equals: Delusions of
persecution and absolute
loss of bodily autonomy.

ANGEL-FACE & THE CAVALRY

Equals: A violent psychologi-
cal defense mechanism and
savior complex deeply rooted
in maternal reliance.

CONCLUSION: "The Vladivostok Incident" is not merely a tactical warzone, but the literal mapping of a mind at war with its own treatment.
